### DETAILED ACTION

Applicant's arguments filed 6/18/05 have been fully considered. The following restriction applies to claims submitted on 3/2/04.

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-13, 28-33, 35-42, 43-51, 52-73, and 78-83 drawn to recommending a power generating facility to a business entity.
- II. Claims 14-27, drawn to determining a value for a power plant using predicted total revenue and predicted total cost.
- III. Claims 74-77, drawn to modifying a database.

The inventions are distinct, each from the other because of the following reasons:

Inventions I, II, III are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01).

Since the above-mentioned reply appears to be *bona fide*, applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment.

**EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).**

Art Unit: 2125

Because these inventions are distinct for the reasons given above and the search required for each Groups I-III are distinct, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
